

EURO CIRCUITS

YOUR SINGLE - SOURCE EUROPEAN PCB & ASSEMBLY PARTNER

eurocircuits.com

LOCAL ACCOUNTABLE EXPERTS

We manufacture and assemble PCBs in our own European factories. We offer multilingual customer support, advice, and technical materials.

We are your manufacturing partner:

Your single accountable contact with more than 30 years of experience!

RIGHT FIRST TIME & DIGITAL FIRST

Our free online tools allow customers to get immediate pricing, perform 'virtual manufacturing' of their designs (DRC/DFM), and complete their order. These tools help reduce production issues in order to get it 'right first time'.

FOCUSED AND COMMITTED

We specialise in prototypes and 'small series' orders.

We manufacture all PCBs in accordance with the **IPC-A-600 class 2** and **IPC-A-610 class 2** standards and we are compliant with quality, environmental and Corporate Social Responsibility (CSR) directives (for example, ISO-9001/14001, UL, RoHS, REACH, conflict minerals, and environmental regulations).

OUR MANUFACTURING SERVICES

Standard lead times in working days ⁽¹⁾	PCB proto	STANDARD pool, DEFINED IMPEDANCE pool, RF pool, IMS pool, SEMI-FLEX pool
PCB (+ enclosure ⁽²⁾)	3	5 ⁽³⁾
PCB + assembly (+ enclosure ⁽²⁾)	6	10 ⁽³⁾

(1) Lead times are available from 2WD but may increase depending on the chosen technical parameters and quantity

(2) Lead time is guaranteed only when we have the chosen enclosure in stock

(3) Lead time may increase depending on the number of components need to be placed
